

```
it::testbench::rte  
::Thread::start
```

```
graph LR; A[it::testbench::rte::Thread::start] --> B[it::testbench::rte::Thread::threadHook];
```

A diagram showing a call from `Thread::start` to `threadHook`. A grey box on the left contains the text `it::testbench::rte::Thread::start`. A blue arrow points from this box to a white box on the right. The white box contains the text `it::testbench::rte::Thread::threadHook`.

```
it::testbench::rte  
::Thread::threadHook
```
