

```
it::testbench::rte  
::Thread::threadHook
```

```
graph LR; A[it::testbench::rte  
::Thread::start] --> B[it::testbench::rte  
::Thread::threadHook];
```

A diagram showing a call from `Thread::start` to `Thread::threadHook`. The source box on the right is white, and the target box on the left is gray. A blue arrow points from the source to the target.

```
it::testbench::rte  
::Thread::start
```
